Cautionary Statement for Purposes of the "Safe Harbor" Provisions of the United States Private Securities Litigation Reform Act of 1995

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements, which reflect management's current views with respect to certain future events, trends and financial performance. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information is based on certain key assumptions which we believe to be reasonable but forward-looking information by its nature involves risks and uncertainties, which are outside of our control, that could significantly affect expected results of future events.

The following important factors could cause actual results to differ materially from those projected or implied in any forward-looking statements:

- our ability to successfully implement our strategy over the 2011-2013 period;
- our ability to successfully achieve our debt reduction targets;
- the continuing impact of increased competition in a liberalized market, including competition from established domestic competitors and global and regional alliances formed by other telecommunications operators in our core Italian domestic fixed-line and wireless markets;
- the impact of the global recession in the principal markets in which we operate;
- our ability to utilize our relationship with Telefónica to attain synergies primarily in areas such as network, IT, purchasing and international mobile roaming;
- our ability to introduce new services to stimulate increased usage of our fixed and wireless networks to offset declines in the traditional fixed-line voice business due to the continuing impact of regulatory required price reductions, market share loss, pricing pressures generally and shifts in usage patterns;
- our ability to successfully implement our internet and broadband strategy both in Italy and abroad;
- the impact of regulatory decisions and changes in the regulatory environment in Italy and other countries in which we operate;
- the impact of economic development generally on our international business and on our foreign investments and capital expenditures;
- our services are technology-intensive and the development of new technologies could render such services non-competitive;
- the impact of political developments in Italy and other countries in which we operate;

- the impact of fluctuations in currency exchange and interest rates;
- our ability to build up our business in adjacent markets and in international markets (particularly in Brazil), due to our specialist and technical resources;
- our ability to achieve the expected return on the investments and capital expenditures we have made and continue to make (such as those in Brazil);
- the amount and timing of any future impairment charges for our licenses, goodwill or other assets; and
- the outcome of litigation, disputes and investigations in which we are involved or may become involved.

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. We undertake no obligation to release publicly the result of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereof, including, without limitation, changes in our business or acquisition strategy or planned capital expenditures, or to reflect the occurrence of unanticipated events.

Key Operating and Financial Data -

Telecom Italia Group

Half-year 2011 Highlights

The Group continues its repositioning on markets which offer better prospects for growth. Thanks to the consolidation of Argentina and the strong gains by Brazil, consolidated revenues are up 10% to 14.5 billion euros compared to the corresponding period of the previous year.

At the end of the period, operations in South America account for, in organic terms, 34% of the Group's revenues and 20% of its operating free cash flow (EBITDA-Capital Expenditures).

Cash flows generated by the Group continue to be solid, thanks in part to the huge commitment to improve efficiency, above all in the Domestic market. These results enable the Group to continue to reduce Adjusted Net Financial Debt which at June 30, 2011 is 349 million euros lower than at December 31, 2010 and about 2.5 billion euros down from June 30, 2010.

The Domestic market continues to feature a declining business trend due to the difficult macroeconomic situation and fierce competition in the market. Competitive repositioning begun last year is nevertheless starting to produce results; the contraction in revenues is slowing down particularly on account of the stabilization of prices in the mobile area and protection of value in the fixed client base.

The impairment test conducted at June 30, 2011 led to an impairment charge of 3.2 billion euros on the Goodwill allocated to the Core Domestic business. Such Goodwill, which originated during the period 1999-2005 as a result of acquisitions and the shortening of the Company's chain of command, was recalculated at 38.3 billion euros.

The consolidated net loss for the period attributable to owners of the Parent of 2.0 billion euros thus reflects the impact of the Goodwill impairment charge, which is countered by a current operating trend that remains positive. Excluding the negative impact of the Goodwill impairment charge, the profit for the period would have been 1.2 billion euros, which is basically in line with that of the prior year.

The Goodwill impairment charge has no financial effect and therefore does not have any consequences on the Company's debt deleveraging plans and the dividend payment policy which will be decided in conformity with the indications already announced to the market and taking into account the distributable reserves of the Parent which amount to more than 10 billion euros at June 30, 2011.

The trend of the key operating and financial indicators in the first half of 2011 can be summarized as follows:

Reported consolidated Revenues: amount to 14,543 million euros. This is an increase of 10.0% (+1,320 million euros) thanks to the revenues contributed by Latin American operations, which benefited from the entry of the Argentina Business Unit in the scope of consolidation, and the positive performance by the Brazil Business Unit. The change in organic consolidated Revenues⁽¹⁾ is equal to +1.0% compared to the same period of the prior year.

More to the point:

the organic reduction in Domestic Business Unit Revenues is 6.7%; as for the performance by customer segment, compared to the same period of the prior year, the first half of 2011 posted a reduction in revenues of 7.8% in the Consumer segment, 7.1% in the Business segment and 5.3% in the Top Clients segment.

Revenues in Brazil report an organic growth of 16.8% compared to the first half of 2010 (+503 million euros).

Organic Revenues in Argentina grew 27.8% over the first half of 2010 (328 million euros); in particular, Revenues of the Mobile business are up 34.4% while the Fixed-line area expanded by 15.4% compared to the corresponding period of the prior year.

Reported EBITDA: rose 244 million euros (from 5,733 million euros in the first half of 2010 to 5,977 million euros in the first half of 2011); a positive contribution was made to this result by the entry of the Argentina Business Unit in the scope of consolidation. Reported consolidated EBITDA margin fell 2.3 percentage points, settling at 41.1% in the first half of 2011 (43.4% in the first half of 2010).

Organic consolidated EBITDA margin is down 1.2 percentage points to 41.4% in the first half of 2011 (42.6% in the first half of 2010). Such performance is linked to higher revenues to total revenues by South America where margins are lower than those of the Domestic Business. In terms of the amount, organic EBITDA totals 6,021 million euros (6,143 million euros in the same period of the prior year).

Reported consolidated EBIT: is a negative of 51 million euros in the first half of 2011 (profit of 2,881 million euros in the first half of 2010) and is penalized by the impact of the impairment charge of 3,182 million euros on the goodwill allocated to the Domestic business.

Organic consolidated EBIT: amounts to 3,174 million euros in the first half of 2011 (+4.0% compared to the first half of 2010). Organic consolidated EBIT margin is 21.8%, gaining 0.6 percentage points compared to the same period of last year (21.2%).

Finance income/expenses and Investment Results: show the finance component, investment management and the equity valuation of associates basically in line with the same period of the prior year. The investment results, in particular, include the positive impact of 17 million euros from the January 31, 2011 sale of the entire investment held in EtecSA (Cuba), which is in addition to the benefit of the impairment reversal of 30 million euros that had been recorded in 2010.

Loss for the period attributable to owners of the Parent: is 2,013 million euros, with a reduction of 3,224 million euros compared to the first half of 2010 (profit of 1,211 million euros). Excluding the impact of the goodwill impairment charge, the profit for the period would have amounted to 1,169 million euros, a figure basically in line with that of the corresponding period of the prior year.

Operating free cash flow: is 2,512 million euros in the first half of 2011, increasing 360 million euros over the corresponding period of the prior year, confirming the Group's growing ability to generate cash

flows, thanks to the positive contribution of the Domestic and Brazil markets and also the entry of the Argentina Business Unit in the scope of consolidation.

Adjusted net financial debt: is 31,119 million euros at June 30, 2011, down 349 million euros compared to December 31, 2010 (31,468 million euros). Better cash generation from operating activities, together with the receipt of 386 million euros from the sale of the investment in EtecSA (Cuba), amply covered the payment of dividends (1,325 million euros, of which 1,183 million euros was paid to the market by the Parent) and the purchase of shares which in the first half of 2011 enabled the Telecom Italia Group to increase its economic stake in the Telecom Argentina group from 16.2% to 21.1%.

Compared to June 30, 2010, adjusted net financial debt decreased by about 2.5 billion euros, confirming the positive advances in deleveraging forecast for the entire year 2011 of a reduction in debt of approximately 2 billion euros by the end of the year.

Liquidity margin: liquidity amounts to 5.1 billion euros at June 30, 2011. During the first half of 2011, two new bond issues were placed on the European market for a total of 1.75 billion euros while about 3.5 billion euros of debt was repaid or repurchased. There is also another 7.8 billion euros of liquidity in long-term irrevocable credit lines (mainly 6.5 billion euros expiring in 2014 and 1.25 billion euros expiring in 2013), not subject to events which limit utilization. In the present environment of financial market uncertainty, the Telecom Italia Group keeps a high level of financial coverage, optimizing, at the same time, the average cost of debt.

The Half-year Financial Report at June 30, 2011 of the Telecom Italia Group has been prepared as set out in art. 154-ter (Financial Reports) of Legislative Decree 58/1998 (Consolidated Law on Finance TUF), and subsequent amendments and additions and has been drawn up in accordance with international accounting standards issued by the International Accounting Standards Board and endorsed by the European Union (denominated IFRS), as well as the measures enacted implementing art. 9 of Legislative Decree 38/2005.

The Half-year Financial Report includes:

the Interim Management Report;

the Half-year Condensed Consolidated Financial Statements;

the Certification of the Half-year Condensed Consolidated Financial Statements pursuant to art. 81-ter of Consob Regulation 11971 dated May 14, 1999, with amendments and additions.

The accounting principles and consolidation principles adopted in the preparation of the Half-year Condensed Consolidated Financial Statements at June 30, 2011 have been applied on a basis consistent with those adopted in the Annual Consolidated Financial Statements at December 31, 2010, to which reference can be made, except for new standards and interpretations adopted by the Group beginning from January 1, 2011. Such new standards and interpretations did not have any impact on the Half-year Condensed Consolidated Financial statements at June 30, 2011.

The Telecom Italia Group, in addition to the conventional financial performance measures established by IFRS, uses certain alternative performance measures in order to present a better understanding of the trend of operations and financial condition. Specifically, these alternative performance measures refer to: EBITDA, EBIT, the organic change in revenues, EBITDA and EBIT, net financial debt carrying amount and adjusted net financial debt. Additional details on such measures are presented under Alternative Performance Measures .

Furthermore, the part entitled Business Outlook for the Year 2011 contains forward-looking statements in relation to the Group s intentions, beliefs or current expectations regarding financial performance and other aspects of the Group s operations and strategies. Readers of the Half-year Financial Report are reminded not to place undue reliance on forward-looking statements; actual results may differ significantly from forecasts owing to numerous factors, the majority of which is beyond the scope of the Group s control.

PRINCIPAL CHANGES IN THE SCOPE OF CONSOLIDATION

On October 13, 2010, the Sofora group Telecom Argentina entered the scope of consolidation following the increase, from 50% to 58%, in the stake held by the Telecom Italia Group in the share capital of Sofora Telecomunicaciones S.A., the controlling holding company, of the Telecom Argentina group. In January and in March

2011, further shares were acquired which increased the economic stake in the Telecom Argentina group from 16.2% to 21.1%.

The data of the Sofora group are represented in the Telecom Italia Group by the new business unit denominated Argentina Business Unit .

During 2010 the following companies exited the scope of consolidation: HanseNet Telekommunikation GmbH (a company operating in the broadband sector in Germany), which had already been classified in Discontinued operations/Non-current assets held for sale, whose sale took place on February 16, 2010; Elettra (a company included in the Domestic Business Unit International Wholesale) sold on September 30, 2010 and the BBNed group (included in Other Operations) sold on October 5, 2010.

Revenues

Revenues amount to 14,543 million euros in the first half of 2011, increasing 10.0% compared to 13,223 million euros in the first half of 2010 (+1,320 million euros). In terms of the organic change, consolidated revenues increased 1.0% (+137 million euros).

In particular, the organic change in revenues is calculated by:

considering the effect of the change in the scope of consolidation (1,104 million euros, principally in reference to the consolidation of the Argentina Business Unit);

considering the effect of exchange differences (+114 million euros, almost entirely due to the positive exchange rate effect of the Brazil Business Unit⁽¹⁾, equal to +121 million euros);

excluding other non-organic revenues, equal to 35 million euros in the first half of 2010, relating to the termination, in the first half of 2010, of the 1001TIM loyalty program which had produced an increase in revenues from award credits previously suspended because not used by the customer.

The breakdown of revenues by operating segment is the following:

(millions of euros)	1 st Half 2011		1 st Half 2010		Change		
		% of total		% of total	amount	%	% organic

Total consolidated revenues	14,543	100.0	13,223	100.0	1,320	10.0	1.0

summarizes the changes in organic revenues in the periods under comparison:

The following chart

The Domestic Business Unit (divided into Core Domestic and International Wholesale) reports a declining trend in organic Revenues of 6.7% compared to the first half of 2010. This is an improvement over the first quarter of the year (-7.4%) thanks to the initial results from the repositioning strategy undertaken in the mobile business and the defense of value of the fixed customer base.

The organic services component (8,995 million euros in the first half of 2011) records a contraction of 6.9% and confirms the improving trend over the prior year (-7.6% in the first quarter of 2011 compared to -6.2% in the second quarter of 2011), driven by the mobile area (-10.2% in the first half of 2011, -8.7% in the second quarter of 2011), where the efforts made to competitively reposition TIM's rate plans are still being felt but to a lesser degree. The fixed area, with a contraction in revenues of 332 million euros (-4.9% in the first half of 2011, in line with the first quarter of 2011), reflects the performance of the International Wholesale voice business. Revenues in that area were penalized by strong price pressure caused by market competition and also rationalization measures undertaken to achieve a more selective approach to the client portfolio, recording a reduction of 21.8% in the first half of 2011, although there was no significant impact on the margin. Retail customer Revenues also contracted from the prior year (-6.2%) but improved during the first half (-6.3% in the first quarter of 2011; -6.0% in the second quarter of 2011).

As for handset sales, revenues total 361 million euros in the first half of 2011, displaying an increase driven entirely by the mobile area which benefits from a greater sales push on terminals offering mobile internet services.

As for the Brazil Business Unit, organic revenues grew 16.8% in the first half of 2011 compared to the first half of 2010. Service revenues confirm the positive trend (+10.4% in the first half of 2011) that was seen in the first quarter of 2011 (+9.0%), propelled by the growth of the customer base (55.5 million lines at June 30, 2011). Handset sales also show a significant increase (+142% in the first half of 2011) boosted, like the domestic business, by the strategy focusing on smartphones and webphones as the lever for the growth of mobile data traffic revenues.

An in-depth analysis of revenue performance by individual Business Unit is provided in the chapter The Business Units of the Telecom Italia Group .

EBITDA

EBITDA is 5,977 million euros, increasing 244 million euros (+4.3%) compared to the same period of the prior year; the EBITDA margin is 41.1% (43.4% in the first half of 2010). In organic terms, EBITDA decreased 2.0% and the EBITDA margin is down 1.2 percentage points (41.4% in the first half of 2011 vs. 42.6% in the first half of 2010).

Details of EBITDA and EBITDA margins by operating segment are as follows:

(millions of euros)	1 st Half 2011		1 st Half 2010		Change		
	amount	% of total	amount	% of total	amount	%	% organic
Domestic	4,547	76.1	4,920	85.8	(373)	(7.6)	(6.2)

<i>EBITDA margin</i>	41.1		43.4		(2.3) pp		(1.2) pp

The following chart summarizes the changes in organic EBITDA:

(Revenues and income) / Costs and expenses excluded from the calculation of organic EBITDA are the following:

(millions of euros)	1 st Half	1 st Half	Change
	2011	2010	
Non-organic revenues	-	(35)	35
Disputes and settlements	8	4	4
Other	36	12	24
Total net non-organic (revenues and income) / costs and expenses	44	(19)	63

EBITDA was particularly impacted by the change in the line items analyzed below:

Acquisition of goods and services: the increase of 864 million euros is largely due to the entry of the Argentina Business Unit in the scope of consolidation (an impact of 617 million euros in the first half of 2011) and the surge in the sales and technical costs of the Brazil Business Unit due mainly to an overall increase of +574 million euros needed to support the growth of the customer base and sales. Countering these charges is the performance of the domestic business which benefits from cost cutting actions which contributed to a reduction in purchases of 274 million euros compared to the first half of 2010 (-7.6%);

Employee benefits expenses: record a total increase of 119 million euros. The increase largely reflects the entry of the Argentina Business Unit in the scope of consolidation (an impact of 208 million euros in the first half of 2011); in contrast, the Italian component of ordinary employee benefits expenses is down 98 million mainly due to the

reduction in the average headcount of the salaried workforce of 4,176 persons compared to the first half of 2010 (of whom -1,497 are under so-called solidarity contracts in Telecom Italia S.p.A. and Shared Service Center S.r.l.);

Other operating expenses: grew 274 million euros compared to the first half of 2010 largely on account of the entry of the Argentina Business Unit in the scope of consolidation (an impact of 157 million euros in the first half of 2011), the increase of the Brazil Business Unit (+47 million euros including an exchange rate effect of 12 million euros) and the Domestic Business Unit (+73 million euros). In particular:

-

writedowns and expenses in connection with credit management include 180 million euros referring to the Domestic Business Unit (154 million euros in the first half of 2010), 47 million euros to the Brazil Business Unit (77 million euros in the first half of 2010) and 15 million euros to the Argentina Business Unit;

-

provision charges recorded mainly for pending disputes include 43 million euros referring to the Domestic Business Unit (19 million euros in the first half of 2010),

30 million euros to the Brazil Business Unit (17 million euros in the first half of 2010) and 5 million euros to the Argentina Business Unit;

-

telecommunications operating fees and charges show an increase of 93 million euros referring primarily to the Brazil Business Unit (+60 million euros, including a positive exchange rate effect of 7 million euros), as well as the entry of the Argentina Business Unit in the scope of consolidation (28 million euros).

Details of the main line items which impacted EBITDA are presented in the following tables:

(1)
 The increment in the average headcount of the salaried workforce is primarily attributable to the entry of the Argentina Business Unit in the scope of consolidation (14,993 average headcount in the first half of 2011).

(2)

Includes the average headcount with temp work contracts: 95 in the first half of 2011 (78 in Italy and 17 outside Italy). In the first half of 2010, the headcount was 77 (64 in Italy and 13 outside Italy).

Depreciation of property, plant and equipment owned and leased	1,751	1,662	89
Total	2,843	2,845	(2)

The increase in amortization and depreciation charges is due to the entry of the Argentina Business Unit in the scope of consolidation (an impact of 261 million euros in the first half of 2011) countered by the decrease in amortization and depreciation charges of the Domestic Business Unit (-111 million euros) and the Brazil Business Unit (-149 million euros, including the effect of the change in the real/euro exchange rate of +28 million euros).

Impairment reversals (losses) on non-current assets

The impairment losses on non-current assets amount to 3,182 million euros in the first half of 2011 following the impairment charge to Goodwill allocated to the Core Domestic cash-generating unit of the Domestic Business Unit.

Specifically, in the first half of 2011, the Group, as in prior years, repeated the impairment test on goodwill. The results of the test led to an impairment charge to the goodwill allocated to the Core Domestic cash-generating unit of 3,182 million euros. The impairment test, according to the Group's specific testing procedure, took into account the worsening of the financial market context both in general terms, with reference to the trend of interest rates, and in specific terms, according to the expectations of analysts about the anticipated performance of the Business Unit in question. For a more detailed analysis, reference should be made to the Note Goodwill in the Telecom Italia Group half-year condensed consolidated financial statements at June 30, 2011.

EBIT

EBIT is a negative 51 million euros, with a negative change of 2,932 million euros compared to the first half of 2010. The organic change in EBIT, calculated by excluding also the above goodwill impairment

charge, is a profit of 122 million euros (+4.0%); the organic EBIT margin grew from 21.2% in the first half of 2010 to 21.8% in the first half of 2011.

In detail, the organic change in EBIT is calculated by:

excluding the effect of the change in the scope of consolidation (184 million euros, mainly referring to the consolidation of the Argentina Business Unit);

excluding the effect of the exchange rate changes (+6 million euros);

excluding (revenues and income) / costs and expenses, with details as follows:

(millions of euros)	1 st Half 2011	1 st Half 2010	Change
Non-organic costs and expenses already described under EBITDA	44	(19)	63

Total	(12)	39	(51)

The investment in EtecSA (Cuba), which was classified in Non-current assets held for sale starting from the month of October 2010, was sold on January 31, 2011.

Other income (expenses) from investments

In the first half of 2011, Other income (expenses) from investments is an income balance of 15 million euros and refers for 17 million euros to the gain on the sale of the entire 27% investment in the Cuban operator EtecSA. That amount is in addition to the benefit from the impairment reversal of 30 million euros, recorded in 2010.

In the first half of 2010, Other income (expenses) from investments was an income balance of 2 million euros and mainly included the net gains on the sale of minor companies.

Finance income (expenses)

Finance income (expenses) is an expense balance of 961 million euros (an expense balance of 998 million euros in the first half of 2010); this is an improvement of 37 million euros largely arising from lower net debt exposure.

Income tax expense

Income tax expense is 777 million euros and posts an increase of 95 million euros compared to the first half of 2010 (682 million euros) owing to higher taxable profit reported by the South American Business Units.

Profit (Loss) from Discontinued operations/Non-current assets held for sale

In the first half of 2011, the balance is a loss of 11 million euros and includes expenses incurred in connection with the sales transactions of prior years.

Profit (loss) for the period

The profit (loss) for the period can be analyzed as follows:

Non-current assets

Goodwill: decreased 3,221 million euros due not only to the previously mentioned impairment charge of 3,182 million euros but also to fluctuations in the exchange rates of the companies in Brazil and Argentina.

Other intangible assets: decreased 444 million euros, from 7,903 million euros at the end of 2010 to 7,459 million euros at June 30, 2011, being the balance of the following:

additions (+853 million euros);

amortization charge for the period (-1,092 million euros);

disposals, exchange differences, other changes in the scope of consolidation, reclassifications and other movements (for a net balance of -205 million euros).

Tangible assets: decreased 838 million euros from 16,550 million euros at the end of 2010 to 15,712 million euros at June 30, 2011, being the balance of the following:

additions (+1,184 million euros);

depreciation charge for the period (-1,751 million euros);

disposals, exchange differences, other changes in the scope of consolidation, reclassifications and other movements (for a net balance of -271 million euros).

Discontinued operations/Non-current assets held for sale

At December 31, 2010, this line item included the entire investment held in EtecSA (Cuba) which was sold on January 31, 2011.

Consolidated equity

Consolidated equity amounts to 29,354 million euros (32,610 million euros at December 31, 2010), of which 25,761 million euros is attributable to owners of the Parent (28,819 million euros at December 31, 2010) and 3,593 million euros is attributable to Non-controlling interests (3,791 million euros at December 31, 2010).

(*) Includes the change in trade payables for amounts due to fixed asset suppliers.

In addition to what has already been described with reference to EBITDA, net operating free cash flow during the first half of 2011 has been particularly impacted by the following:

Capital expenditures on an accrual basis

The breakdown of capital expenditures by operating segment is as follows:

(millions of euros)	1 st Half 2011		1 st Half 2010		Change
		% of total		% of total	
Domestic	1,358	66.7	1,487	73.6	(129)
Brazil	444	21.8	507	25.1	(63)
Argentina	205	10.1	-	-	205

<i>% of Revenues</i>	<i>14.0</i>	<i>15.3</i>	<i>(1.3) pp</i>
----------------------	-------------	-------------	-----------------

Capital expenditures in the first half of 2011 total 2,037 million euros and are basically unchanged compared to the first half of 2010. Specifically, the reduction in the capital expenditures of the Domestic Business Unit (-129 million euros; -8.7%), which also benefits from the effects of the programs to cut costs and capital expenditures, and of the Brazil Business Unit (-63 million euros) is offset by the entry of the Argentina Business Unit in the scope of consolidation (+205 million euros).

Sale of investments and other disposals flow

Sale of investments and other disposals flow totals 392 million euros and 386 million euros of that amount refers to the portion already received, net of related accessory charges, from the sale of EtecSA (Cuba). The transaction specifically provides that the Telecom Italia Group will receive a total of 706 million U.S. dollars, of which 500 million U.S. dollars has already been paid by the buyer on

January 31, 2011; the remaining amount will be paid by EtecSA in 36 monthly installments. The receivable is secured by specific guarantees.

Financial investments: acquisition of stakes in the Sofora Telecom Argentina group

During the first half of 2011, the Telecom Italia Group increased the stakes held in Sofora Telecomunicaciones S.A. and in Nortel Inversora S.A. (the controlling holding company of the Telecom Argentina group, which, in turn, is controlled by Sofora Telecomunicaciones) for a total investment of 155 million euros.

In particular:

on January 24, 2011, the Telecom Italia Group, through its subsidiary Telecom Italia International N.V., purchased 2,351,752 Nortel American Depositary Shares (ADS), representing *Preferidas B* shares, from Fintech Investment Ltd for 65.8 million U.S. dollars.

The ADSs in question represent 117,587.6 *Preferidas B* shares (without voting rights);

on March 9, 2011, Telecom Italia, through its subsidiary Telecom Italia International N.V., purchased a 10% stake in Sofora Telecomunicaciones S.A. from the local partner Werthein and thus increased its investment holding in Sofora from 58% to 68% of the company's share capital. The transaction did not alter or modify either the governance rights of the Telecom Argentina group established by agreement between the shareholders signed by the Telecom Italia Group and Werthein, which is still in force, or the commitments undertaken by the Telecom Italia Group with the Argentine antitrust authorities.

In view of the above increments in the investments, the economic stake of the Telecom Italia Group in Telecom Argentina rose from 16.2% at December 31, 2010 to the current 21.1%.

Finance expenses, income taxes and other net non-operating requirements flow

Finance expenses, income taxes and other net non-operating requirements flow mainly includes the payment, during the first half of 2011, of net finance expenses, income taxes and also the change in non-operating receivables and payables.

During the first half of 2010, the item also included the court ordered deposit of 282 million euros for the precautionary confiscation of liquid resources relating to the Telecom Italia Sparkle case. The seizure order was reversed in August 2010.

The financial risk management policies of the Telecom Italia Group are directed towards diversifying market risks, hedging exchange rate risk in full and optimizing interest rate exposure by an appropriate diversification of the portfolio, which is also achieved by using carefully selected derivative financial instruments. Such instruments, it should be stressed, are not used for speculative purposes and all have an underlying.

Furthermore, in order to determine its exposure to interest rates, the Group defines an optimum composition for the fixed-rate and variable-rate debt structure and uses derivative financial instruments to achieve that prefixed composition. Taking into account the Group's operating activities, the optimum mix of medium/long-term non-current financial liabilities has been established, on the basis of the nominal amount, in a range of 60% - 70% for the fixed-rate component and 30% - 40% for the variable-rate component.

In managing market risks, the Group has adopted a Guideline policy for debt management using derivative instruments and mainly uses IRS and CCIRS derivative financial instruments.

The volatility of interest rates and exchange rates, featuring prominently in the financial markets since the fourth quarter of 2008, significantly impacted the fair value measurement of derivative positions and the related financial assets and liabilities. Having said this and in order to present a more realistic analysis of net financial debt, starting from the June 2009 report, in addition to the usual indicator (renamed Net financial debt carrying amount), a new indicator is also presented denominated Adjusted net financial debt which excludes effects that are purely accounting and non-monetary in nature deriving from the fair value measurement of derivatives and related financial assets and liabilities. The measurement of derivative financial instruments, which also has the objective of pre-setting the exchange rate and the interest rate of future variable contractual flows, does not, in fact, require an actual financial settlement.

Sales of receivables to factoring companies

The sales of receivables to factoring companies finalized during the first half of 2011 resulted in a positive effect on net financial debt at June 30, 2011 of 815 million euros (1,209 million euros at December 31, 2010).

Gross financial debt

Bonds

Bonds at June 30, 2011 are recorded for 26,828 million euros (29,578 million euros at December 31, 2010). Their nominal repayment amount is 26,041 million euros, decreasing 2,288 million euros compared to December 31, 2010 (28,329 million euros).

The change in bonds during the first half of 2011 is as follows:

⁽¹⁾ Net of repayments by the company for 209 million euros during the years 2009-2011.			

As occurred in past years, during the first half of 2011, the Telecom Italia Group bought back bonds, with the aim of:

giving investors a further possibility of monetizing their positions;

partially repaying some debt securities before maturity, increasing the overall return on the Group's liquidity without inviting any additional risks.

In particular, the following bonds were repurchased:

(millions of original currency)	Currency	Amount	Buyback periods
Buybacks			
Telecom Italia Finance S.A. 1,791 million euros 7.50% maturing April 2011 ^(*)	Euro	93	January - March 2011
Telecom Italia Finance S.A. 813 million euros 7.25% maturing April 2012	Euro	187	January - March 2011
^(*)			

During the years 2009 and 2010, bonds had already been bought back for 116 million euros. Therefore the total amount bought back is 209 million euros.

In reference to the Telecom Italia S.p.A. 2002-2022 bonds, reserved for subscription by employees of the Group, the nominal amount at June 30, 2011 is equal to 283 million euros and 22 million euros lower compared to December 31, 2010 (305 million euros).

Revolving Credit Facility

The following table shows the composition and the drawdown of the committed credit lines available at June 30, 2011. These are represented by the Revolving Credit Facility for a total of 8 billion euros expiring August 2014, the syndicated revolving line for a total of 1.25 billion euros expiring February 2013 and the revolving credit line for a total of 200 million euros signed December 20, 2010 and expiring June 19, 2012 (renewable at the discretion of Telecom Italia up to December 18, 2013):

Maturities of financial liabilities and average cost of debt

The average maturity of non-current financial liabilities (including the current portion of medium/long-term financial liabilities) is 7.67 years.

The average cost of the Group's debt, considered as the cost for the period calculated on an annual basis and resulting from the ratio of debt-related expenses to average exposure, is about 5.4%.

For details of the maturities of financial liabilities in terms of expected nominal repayment amounts, as contractually agreed, reference should be made to the Notes Financial liabilities (current and non-current) and Financial risk management in the Telecom Italia Group first-half condensed consolidated financial statements at June 30, 2011.

Current financial assets and liquidity margin

The Telecom Italia Group's available liquidity margin, calculated as the sum of Cash and cash equivalents and current Securities other than investments, amounts to 5,061 million euros at June 30, 2011 (6,842 million euros at December 31, 2010) which, together with its unused committed credit lines for 7.8 billion euros, allows the Group to amply meet its repayment obligations over the next 24 months

In particular:

Cash and cash equivalents amount to 3,760 million euros (5,526 million euros at December 31, 2010). The different technical forms of investing available cash at June 30, 2011, which include euro commercial paper for 174 million euros, can be analyzed as follows:

Maturities: investments have a maximum maturity of three months;

Counterpart risk: investments by European companies are made with leading banking, financial and industrial institutions with high-credit-quality and at least an A- rating. Investments by companies in South America are made with leading local counterparts;

Country risk: investments are made mainly in major European financial markets.

Securities other than investments amount to 1,301 million euros (1,316 million euros at December 31, 2010). Such forms of investment represent alternatives to the investment of liquidity with the aim of raising the return. These mainly consist of 1,149 million euros of Italian treasury bonds purchased by Telecom Italia S.p.A. (with an A rating by S&P's) and 150 million euros of bonds (with a rating of at least BBB+ by S&P's) with different maturities, but all with an active market, that is, readily convertible into cash.

In the **second quarter of 2011**, **adjusted net financial debt** increased 497 million euros: the payment of dividends for a total of 1,325 million euros absorbed the positive effects from positive operating changes.
