PSYCHEMEDICS CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)

1. Interim Financial Statements

The accompanying unaudited interim financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission for reporting on Form 10-Q. Accordingly, certain information and footnote disclosure required for complete financial statements are not included herein. It is recommended that these financial statements be read in conjunction with the financial statements and related notes of Psychemedics Corporation (the Company, our Company, our or we) as reported in the Company s Annual Report on Form 10-K for the year ended December 31, 2007. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of financial position, results of operations, and cash flows at the dates and for the periods presented have been included. The results of operations for the three and six months ended June 30, 2008 may not be indicative of the results that may be expected for the year ending December 31, 2008, or any other period.

2. Investments

As of June 30, 2008, our investments consisted of high-grade (AAA rated) Taxable Auction Rate Preferred, 7 and 28 day Dutch auction securities and government obligations. The Company accounts for investment securities in accordance with Statement of Financial Accounting Standards SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities* (SFAS 115). Under SFAS 115, investments that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity and are reported at amortized cost, which approximates fair market value. All short-term and long-term investments were classified as held-to-maturity at June 30, 2008 and December 31, 2007. The Company does not use derivative financial instruments for speculative or trading purposes.

The Dutch auction process resets the applicable interest rates at prescribed calendar intervals and is intended to provide liquidity to the holders of auction rate securities by matching buyers and sellers in a market context, enabling the holders to gain immediate liquidity by selling such securities at par, or rolling over their investment. If there is an imbalance between buyers and sellers, there is a risk of a failed auction. Due to recent credit issues experienced by short-term funding markets, some of these securities have failed at auction during the first six months of 2008. An auction failure is not a default, and in some cases it could reset the applicable interest rates to a higher rate as outlined by the security. We do not currently intend to liquidate these investments at below par value or prior to a reset date. However, if the global credit market continues to deteriorate, we could determine that some of our investments are impaired. We will assess the fair value of these securities at the end of each quarter to determine if an impairment charge may be required. Based on our ability to access our cash and cash equivalents, our expected operating cash flows and our other sources of cash, we do not anticipate that any lack of liquidity related to these securities will materially affect our ability to operate our business.

Table of Contents

PSYCHEMEDICS CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)

2. Investments (continued)

Auction failures and the resulting lack of liquidity are affecting the entire auction rate securities market and we are currently unable to determine whether these conditions will be temporary. Some issuers have recently refinanced their auction rate securities and other issuers are in the process of doing so. Since we are unable to determine when these securities will become liquid, we have reclassified certain auction rate securities as long-term investments on our condensed balance sheet at June 30, 2008 amounting to \$2.2 million. We intend to hold our auction rate securities until they can be sold at their face value.

3. Stock-Based Compensation

The Company's 2006 Equity Incentive Plan, adopted in March 2006, provides for the grant or issuance to officers, directors, employees and consultants of options with terms of up to ten years, restricted stock, issuances of stock bonuses or other stock-based awards, covering up to 250,000 shares of common stock. As of June 30, 2008, 158,700 shares remained available for grant under the 2006 Equity Incentive Plan.

The Company granted 32,600 stock unit awards (SUAs) to certain members of management and its directors on May 15, 2008. The Company granted 34,000 SUAs to certain members of management and its directors on May 10, 2007. The fair value of the SUAs was determined by the closing price on the date of grant. The SUAs vest over a period of two to four years and are convertible into an equivalent number of shares of the Company's common stock provided that the awardee remains continuously employed throughout the vesting periods. The Company records compensation expense related to the SUAs on a straight-line basis over the vesting term of the SUA. Employees are issued shares upon vesting, net of tax withholdings.

A summary of activity for SUAs under the Company's 2006 Equity Incentive Plan for the six months ended June 30, 2008 is as follows:

	Number of Shares	Aggregate Intrinsic Value (1) (000s)
Outstanding, December 31, 2007	51,550	
Granted	32,600	
Terminated		
Converted to common stock	(17,150)	
Outstanding, June 30, 2008	67,000	\$ 1,099
Available for grant, June 30, 2008	158,700	

(1) The aggregate intrinsic value on this table was calculated based on the closing market price of the Company's stock on June 30, 2008

(\$16.40).

Table of Contents

PSYCHEMEDICS CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)

3. Stock-Based Compensation (continued)

The Company also has stock option plans that have expired, but from which shares can be issued upon exercise of outstanding options that were granted prior to such expiration.

Under the provisions of SFAS 123R, the Company recorded \$90 thousand and \$55 thousand of stock-based compensation in the accompanying statements of income for the three months ended June 30, 2008 and 2007, respectively. The Company recorded \$166 thousand and \$87 thousand of stock-based compensation for the six months ended June 30, 2008 and 2007, respectively.

The Company has computed the value of options using the Black-Scholes option pricing model.

A summary of stock option activity for the Company's expired stock option plans for the six months ended June 30, 2008 is as follows:

	Number of Shares	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value (2) (000s)
Outstanding, December 31, 2007	450,034	\$ 15.63		
Granted				
Exercised	(18,139)	13.93		
Terminated	(39,785)	20.51		
Outstanding, June 30, 2008	392,110	\$ 15.22	4.9 years	\$ 743
Exercisable, June 30, 2008	392,110	\$ 15.22	4.9 years	\$ 743

Available for grant, June 30, 2008

(2) The aggregate intrinsic value on this table was calculated based on the amount, if any, by which the closing market value of the Company's stock on June 30, 2008 (\$16.40) exceeded the exercise price of the underlying options, multiplied by

the number of
shares subject to
each option.

The total intrinsic value of stock options exercised, calculated based on the amount by which the market value of the Company's stock at the time of exercise exceeded the exercise price, was \$60 thousand and \$68 thousand during the three months ended June 30, 2008 and 2007, respectively. The total intrinsic value of stock options exercised was \$65 thousand and \$163 thousand during the six months ended June 30, 2008 and 2007, respectively.

Table of Contents

PSYCHEMEDICS CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)

3. Stock-Based Compensation (continued)

As of June 30, 2008, a total of 617,810 shares of common stock were reserved for issuance under the various stock option and stock-based plans. As of June 30, 2008, the unamortized fair value of awards relating to SUAs was \$578 thousand.

4. Basic and Diluted Net Income Per Share

Basic net income per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing net income by the weighted average number of common and dilutive common equivalent shares outstanding during the period. The number of dilutive common equivalent shares outstanding during the period has been determined in accordance with the treasury-stock method. Common equivalent shares consist of common stock issuable upon the exercise of outstanding options and assume the full vesting of all SUAs.

Basic and diluted weighted average common shares outstanding are as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2008	June 30, 2007	June 30, 2008	June 30, 2007
	(in thousands)			
Weighted average common shares	5,224	5,172	5,222	5,191
Common equivalent shares	62	93	59	91
Weighted average common shares outstanding, assuming dilution	5,286	5,265	5,281	5,282

For the three months ended June 30, 2008 and 2007, options to purchase 123 thousand and 98 thousand common shares, respectively, were outstanding but not included in the diluted weighted average common share calculation as the effect would have been antidilutive. For the six months ended June 30, 2008 and 2007, options to purchase 142 thousand and 98 thousand common shares, respectively, were outstanding but not included in the diluted weighted average common share calculation as the effect would have been antidilutive.

5. Revenue Recognition

The Company is in the business of performing drug testing services and reporting the results thereof. The Company's drug testing services include training for collection of samples and storage of positive samples for its customers for an agreed-upon fee per unit tested of samples. The revenues are recognized when the predominant deliverable, drug testing, is provided and reported to the customer.

Table of Contents

PSYCHEMEDICS CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)

5. Revenue Recognition (continued)

The Company recognizes revenue under Emerging Issue Task Force (EITF) Issue No. 00-21, *Revenue Arrangements with Multiple Deliverables*. In accordance with EITF 00-21, the Company considers testing, training and storage elements as one unit of accounting for revenue recognition purposes, as the training and storage costs are de minimis and do not have stand-alone value to the customer. The Company recognizes revenue as the service is performed and reported to the customer, since the predominant deliverable in each arrangement is the testing of the units.

The Company also provides expert testimony, when and if necessary, to support the results of the tests, which is generally billed separately and recognized as the services are provided.

Deferred revenue represents payments received in advance of the performance of drug testing procedures, generally in relation to the personal drug testing kits PDT-90. Deferred revenue is recognized as revenue when the underlying test results are delivered. With respect to a portion of these transactions, there may be instances where the customer ultimately does not require performance. Revenue is then recognized when the Company can reasonably, reliably and objectively determine that it is remote that performance will be required for an estimable portion of transactions. The Company recorded \$21 thousand and \$11 thousand of revenue in the results of operations for the three months ended June 30, 2008 and 2007, respectively, related to test kits that were sold for which the Company's obligations to provide service were deemed remote. The Company recorded \$50 thousand and \$60 thousand of revenue in the results of operations for the six months ended June 30, 2008 and 2007, respectively, related to test kits that were sold for which the Company's obligations to provide service were deemed remote.

At June 30, 2008 and December 31, 2007, the Company had deferred revenue of approximately \$193 thousand and \$243 thousand, respectively, reflecting sales of its personal drug testing service for which the performance of the related test had not yet occurred and future obligations were not deemed remote.

6. Fair Value Measurements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 provides guidance for using fair value to measure assets and liabilities. It also responds to investors' requests for expanded information about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. SFAS 157 applies whenever other standards require (or permit) assets or liabilities to be measured at fair value, and does not expand the use of fair value in any new circumstances. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and has been adopted by the Company in 2008 without material effect on the Company's financial position or results of operations.

Table of Contents

PSYCHEMEDICS CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)

6. Fair Value Measurements (continued)

SFAS 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy prioritizes the inputs in three broad levels as follows:

Level 1 inputs are unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets and liabilities

Level 2 inputs are quoted prices for similar assets and liabilities in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 inputs are prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's or liability's classification within the hierarchy is determined based on the lowest level of any input that is significant to the fair value measurement.

The financial assets of the Company measured at fair value on a recurring basis are cash and cash equivalents and investments. The Company's cash and cash equivalents and investments are generally classified within level 1 or level 2 of the fair value hierarchy because they are valued using quoted market prices, broker dealer quotations or alternative pricing sources with reasonable levels of price transparency.

Our auction rate securities were measured at fair value using level 2 and level 3 inputs as of June 30, 2008. As a result of continued auction failures, quoted prices for our auction rate securities did not exist at June 30, 2008. Auction rate securities which became successfully auctioned subsequent to June 30, 2008 were measured using level 2 inputs, while the remaining balance of our auction rate securities were measured using level 3 inputs. Since it is the intent of the Company to hold our auction rate securities until they can be sold at their face value, the Company has valued our remaining auction rate securities based on their face value. See Note 2. Investments for additional information on our auction rate securities.

The following table summarizes the Company's cash and cash equivalents, short-term investments and long-term investments which are measured at fair value on a recurring basis by level within the fair value hierarchy. As required by SFAS 157, these are classified based on the lowest level of input that is significant to the fair value measurement.

	Fair Value Measurements Using			Assets at Fair Value
	Level 1	Level 2	Level 3	
Cash and cash equivalents	\$ 7,118	\$	\$	\$ 7,118
Short-term investments		200		200
Long-term investments			2,200	2,200
	\$ 7,118	\$ 200	\$ 2,200	\$ 9,518

Table of Contents

PSYCHEMEDICS CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)

6. Fair Value Measurements (continued)

In February 2008, the FASB issued Staff Position No. FAS 157-2, *Effective Date of FASB Statement No. 157* (FSP 157-2) that defers the effective date of applying the provisions of SFAS 157 to the fair value measurement of nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (or at least annually), until fiscal years beginning after November 15, 2008. The Company is currently evaluating the effect that the adoption of FSP 157-2 will have on its results of operations and financial condition but does not expect it to have a material impact.

7. Recent Accounting Pronouncements

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159) including an amendment of FASB Statement No. 115. SFAS 159 permits companies to choose to measure certain financial instruments and certain other items at fair value. The standard requires that unrealized gains and losses on items for which the fair value option has been elected be reported in earnings. The Company adopted SFAS 159 beginning in the first quarter of 2008, without material effect on the Company's financial position or results of operations

In December 2007, the FASB issued SFAS No. 141 (revised), *Business Combinations* (SFAS 141(R)). The statement retains the fundamental requirements of SFAS No. 141, but requires the recognition of all assets acquired and liabilities assumed in a business combination at their fair values as of the acquisition date. It also requires the recognition of assets acquired and liabilities assumed arising from contractual contingencies at their acquisition date fair values. Additionally, SFAS 141(R) supersedes FASB Interpretation No. 4, *Applicability of FASB Statement No. 2 to Business Combinations Accounted for by the Purchase Method*, which required research and development assets acquired in a business combination that have no alternative future use to be measured at their fair values and expensed at the acquisition date. SFAS 141(R) now requires that purchased research and development be recognized as an intangible asset. The Company is required to adopt SFAS 141(R) prospectively for any acquisition on or after January 1, 2009. Early adoption is prohibited. The impact of adopting this pronouncement will be limited to business combinations occurring on or after January 1, 2009.

Table of Contents

PSYCHEMEDICS CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)

7. Recent Accounting Pronouncements (continued)

In December 2007, the FASB issued SFAS No. 160, *Non-Controlling Interests in Consolidated Financial Statements – an amendment of Accounting Research Bulletin No. 51* (SFAS 160) which establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and the non-controlling interest, changes in a parent's ownership interest and the valuation of retained non-controlling equity investments when a subsidiary is deconsolidated. The Statement also establishes reporting requirements that provide sufficient disclosures that clearly identify and distinguish between the interest of the parent and the interests of the non-controlling owners. SFAS 160 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact that SFAS 160 will have on the Company's future results of operations and financial condition.

8. Contingencies

The Company is subject to legal proceedings and claims, which arise in the ordinary course of its business. The Company believes that based upon information available to the Company at this time, the expected outcome of these matters would not have a material impact on the Company's results of operations or financial condition.

9. Subsequent Event – Dividends

On July 28, 2008, the Company declared a quarterly dividend of \$0.17 per share, which will be paid on September 19, 2008 to shareholders of record on September 5, 2008.

Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FACTORS THAT MAY AFFECT FUTURE RESULTS

From time to time, information provided by the Company or statements made by its employees may contain forward-looking information which involves risks and uncertainties. In particular, statements contained in this report which are not historical facts (including, but not limited to, the Company's expectations regarding earnings, earnings per share, revenues, operating cash flows, dividends, future business, growth opportunities, new accounts, customer base, test volume, sales and marketing strategy, business strategy, general and administrative expenses, marketing and selling expenses, research and development expenses, anticipated operating results, strategies with respect to governmental agencies and regulations, cost savings, capital expenditures, liquidity of investments and anticipated cash requirements) may be forward-looking statements. The Company's actual results may differ from those stated in any forward-looking statements. Factors that may cause such differences include, but are not limited to, risks associated with the expansion of the Company's sales and marketing team, employee hiring practices of the Company's principal customers, development of markets for new products and services offered by the Company, the economic health of principal customers of the Company, global credit market volatility, financial and operational risks associated with possible expansion of testing facilities used by the Company, government regulation (including, but not limited to, Food and Drug Administration regulations), competition and general economic conditions. With respect to the continued payment of cash dividends, factors include, but are not limited to, available surplus, cash flow, capital expenditure reserves required, and other factors that the Board of Directors of the Company may take into account.

OVERVIEW

Psychemedics Corporation was incorporated in 1986. The Company is the world's largest provider of hair testing for drugs of abuse, utilizing a patented hair analysis method involving radioimmunoassay technology and confirmation by mass spectrometry to analyze human hair to detect abused substances. The Company's customers include Fortune 500 companies, as well as small to mid-size corporations, schools and governmental entities located primarily in the United States.

Revenue for the second quarter of 2008 was \$6.2 million, a decrease of 4% from second quarter 2007 revenue of \$6.5 million. Revenue for the six months ended June 30, 2008 was \$11.9 million, representing a decrease of 2% in revenue from the comparable period of 2007 of \$12.2 million. The Company reported net income of \$0.20 and \$0.36 per diluted share for the three and six months ended June 30, 2008. At June 30, 2008, the Company had \$9.5 million of cash, cash equivalents and investments. The Company distributed \$1.7 million or \$0.32 per share of cash dividends to its shareholders in the six months ended June 30, 2008. The Company has paid forty-seven consecutive quarterly cash dividends.

Table of Contents**RESULTS OF OPERATIONS**

Revenue was \$6.2 million for three months ended June 30, 2008 compared to revenue of \$6.5 million for the three months ended June 30, 2007, representing a decrease of 4%. Revenue was \$11.9 million for the six months ended June 30, 2008, down 2% when compared to revenue of \$12.2 million for the comparable period in 2007. The decrease in revenue for the three months ended June 30, 2008 was a result of a decrease in testing volume from new and existing clients of 5%, while the average revenue per sample increased 1% during the same period. The decrease in revenue for the six months ended June 30, 2008 was a result of a decrease in testing volume from new and existing clients of 2%, while the average revenue per sample decreased less than 1%.

Gross profit decreased \$334 thousand to \$3.8 million for the three months ended June 30, 2008, compared to \$4.1 million for the three months ended June 30, 2007. Direct costs increased by 2% for the three months ended June 30, 2008 compared to the same period in 2007, mainly due to increased expenses related to laboratory supplies. The gross profit margin decreased to 61% for the three months ended June 30, 2008 compared to 63% for the comparable period of 2007. Gross profit for the six months ended June 30, 2008 decreased \$274 thousand to \$7.1 million compared to \$7.4 million for the comparable period in 2007. Direct costs decreased by less than 1% for the six months ended June 30, 2008 when compared to the same period in 2007, mainly due to decreased labor and associated costs. The gross profit margin remained at 60% for both the six month periods ended June 30, 2008 and 2007.

General and administrative (G&A) expenses were \$1.1 million for the three months ended June 30, 2008 as compared to \$1.0 million for the comparable period of 2007, representing an increase of 6%. As a percentage of revenue, G&A expenses were 18% and 16% for the three months ended June 30, 2008 and 2007, respectively. The increase in general and administrative expenses for the three months ended June 30, 2008 was due primarily to an increase in legal fees and stock-based compensation, net of a decrease in staffing expenses. General and administrative expenses were \$2.1 million for the six months ended June 30, 2008 compared to \$1.9 million for the comparable period in 2007, representing a 14% increase. As a percentage of revenue, G&A expenses were 18% and 15% for the six months ended June 30, 2008 and 2007, respectively. The increase in general and administrative expenses for the six months ended June 30, 2008 was due to an increase in legal fees and stock based compensation expenses.

Marketing and selling expenses were \$902 thousand for the three months ended June 30, 2008 as compared to \$807 thousand for the three months ended June 30, 2007, an increase of 12%. Marketing and selling expenses were \$1.7 million for the six months ended June 30, 2008 as compared to \$1.5 million for the comparable period in 2007, an increase of 13%. Total marketing and selling expenses represented 15% and 12% of revenue for the three months ended June 30, 2008 and 2007, respectively. For the six months ended June 30, 2008 and 2007, marketing and selling expenses represented 14% and 12% of revenue, respectively. The increase in marketing and selling expenses for both the three and six month periods ended June 30, 2008 was due to higher staffing levels and related expenses.

Table of Contents

Research and development (R&D) expenses for the three months ended June 30, 2008 were \$120 thousand, compared to \$161 thousand for the comparable period of 2007, an decrease of 26%. Research and development expenses for the six months ended June 30, 2008 were \$238 thousand compared to \$256 thousand, a decrease of 7%. The decrease for both the three and six month periods ended June 30, 2008 was due to the initial material costs of several scientific projects in 2007, which were not incurred in 2008. R&D expenses represented 2% of revenue for all periods reported.

Interest income for the three months ended June 30, 2008 decreased by \$28 thousand to \$73 thousand when compared to the same period of 2007 in which interest income was \$101 thousand. Interest income for the six months ended June 30, 2008 decreased \$12 thousand to \$185 thousand as compared to \$197 thousand for the same period in 2007. Interest income represented interest and dividends earned on cash and cash equivalents and investments. Decreasing interest rates on our mix of cash, cash equivalents and investments caused the decrease in interest income for both the three and six month periods ended June 30, 2008.

Provision for income taxes During the three and six months ended June 30, 2008, the Company recorded a tax provision of \$699 thousand and \$1.3 million, respectively, representing an effective tax rate of 40.4% for both periods. During the three and six months ended June 30, 2007, the Company recorded a tax provision of \$882 thousand and \$1.6 million, respectively. These provisions represented effective tax rates of 39.8% and 39.9% for the three and six month periods ended June 30, 2007, respectively.

LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2008, the Company had approximately \$7.3 million of cash, cash equivalents and short-term investments. The Company's operating activities provided net cash of \$1.5 million for the six months ended June 30, 2008. Investing activities provided \$1.4 million in the six month period while financing activities used a net amount of \$1.9 million during the period.

Cash provided by operating activities of \$1.5 million reflected net income of \$1.9 million adjusted for depreciation and amortization of \$166 thousand and stock-based compensation of \$166 thousand, offset by an increase in accounts receivable of \$321 thousand and an increase in prepaid expenses of \$456 thousand.

Cash provided by investing activities of \$1.4 million mainly reflects the redemptions of our investments of \$1.5 million. These redemptions represented amounts of auction rate securities which were successfully auctioned subsequent to December 31, 2007. It is the Company's intention to hold all current auction rate securities until such time as they can be sold at their face value. Investing activities also consisted of capital expenditures of \$45 thousand in the first six months of 2008. The expenditures primarily consisted of new equipment, including laboratory and computer equipment. The Company believes that within the next two to five years it may be required to expand its existing laboratory or develop a second laboratory, the cost of which is currently believed to range from \$2 million to \$5 million, which the Company expects to fund primarily through its operating cash flows.

Table of Contents

During the six months ended June 30, 2008, the Company distributed \$1.7 million in cash dividends to its shareholders. The Company repurchased 23,505 shares for treasury during the six months ended June 30, 2008 for \$381 thousand. The Company has authorized 500,000 shares for repurchase since June of 1998, of which 492,256 shares have been repurchased. In March 2008, the Board of Directors of the Company also authorized, under a new repurchase program, an additional 250,000 shares for repurchase.

Contractual obligations as of June 30, 2008 were as follows:

	Less Than One Year	1-3 Years (in thousands)	4-5 years	After 5 Years	Total
Operating leases	\$ 530	\$ 1,030	\$ 289	\$	\$ 1,849
Purchase commitment	303				303
	\$ 833	\$ 1,030	\$ 289	\$	\$ 2,152

The Company has a supply agreement with a vendor which requires the Company to purchase isotopes used in its drug testing procedures from this sole supplier in exchange for variable annual payments based upon prior year purchases. Purchases amounted to \$303 thousand for the six months ended June 30, 2008 as compared to \$294 thousand for the comparable period of 2007. The Company expects to purchase approximately \$303 thousand for the remainder of 2008. In exchange for exclusivity, among other things, the supplier has provided the Company with the right to purchase the isotope technology at fair market value under certain conditions, including the failure to meet the Company's purchase commitments. This agreement does not include a fixed termination date; however, it is cancelable upon mutual agreement by both parties or six months after termination notice by the Company of its intent to use a different technology in connection with its drug testing procedures.

At June 30, 2008, the Company's principal sources of liquidity included an aggregate of approximately \$7.3 million of cash, cash equivalents and short-term investments. Management currently believes that such funds, together with cash generated from operations, should be adequate to fund anticipated working capital requirements and capital expenditures in the near term. Depending upon the Company's results of operations, its future capital needs and available marketing opportunities, the Company may use various financing sources to raise additional funds. Such sources could potentially include joint ventures, issuances of common stock or debt financing, although the Company does not have any such plans at this time. At June 30, 2008, the Company had no long-term debt.

In addition to the \$7.3 million of cash, cash equivalents and short-term investments, the Company also has \$2.2 million (face value) of investments in auction rate securities, which were classified as long-term investments at June 30, 2008 on our condensed balance sheet. The Company intends to hold these auction rate securities until they can be sold at their face value. Based on our ability to access our cash and cash equivalents, our expected operating cash flows and our other sources of cash, we do not anticipate that any lack of liquidity related to these securities will materially affect our ability to operate our business.

Table of Contents

CRITICAL ACCOUNTING POLICIES

Management believes the most critical accounting policies are as follows:

Revenue Recognition

The Company is in the business of performing drug testing services and reporting the results thereof. The Company's drug testing services include training for collection of samples and storage of positive samples for its customers for an agreed-upon fee per unit tested of samples. The revenues are recognized when the predominant deliverable, drug testing, is provided and reported to the customer.

The Company recognizes revenue under Emerging Issue Task Force (EITF) Issue No. 00-21, *Revenue Arrangements with Multiple Deliverables*. In accordance with EITF 00-21, the Company considers testing, training and storage elements as one unit of accounting for revenue recognition purposes, as the training and storage costs are de minimis and do not have stand-alone value to the customer. The Company recognizes revenue as the service is performed and reported to the customer, since the predominant deliverable in each arrangement is the testing of the units.

The Company also provides expert testimony, when and if necessary, to support the results of the tests, which is generally billed separately and recognized as the services are provided.

Deferred revenue represents payments received in advance of the performance of drug testing procedures, generally in relation to the personal drug testing kits PDT-90. Deferred revenue is recognized as revenue when the underlying test results are delivered. With respect to a portion of these transactions, there may be instances where the customer ultimately does not require performance. Revenue is then recognized when the Company can reasonably, reliably and objectively determine that it is remote that performance will be required for an estimable portion of transactions. The Company recorded \$21 thousand and \$11 thousand of revenue in the results of operations for the three months ended June 30, 2008 and 2007, respectively, related to test kits that were sold for which the Company's obligations to provide service were deemed remote. The Company recorded \$50 thousand and \$60 thousand of revenue in the results of operations for the six months ended June 30, 2008 and 2007, respectively, related to test kits that were sold for which the Company's obligations to provide service were deemed remote.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates, including bad debts and income taxes, and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents

Allowance for Doubtful Accounts

The allowance for doubtful accounts is based on management's assessment of the collectibility of its customer accounts. Management reviews its accounts receivable aging for doubtful accounts and specifically identifies accounts that may not be collectible. The Company routinely assesses the financial strength of its customers and, as a consequence, believes that its accounts receivable credit risk exposure is limited. The Company maintains an allowance for potential credit losses but historically has not experienced any significant losses related to individual customers or groups of customers in any particular industry or geographic area. Bad debt expense has been within management's expectations.

Income Taxes

The Company accounts for income taxes using the liability method, which requires the Company to recognize a current tax liability or asset for current taxes payable or refundable and a deferred tax liability or asset for the estimated future tax effects of temporary differences between the financial statement and tax reporting bases of assets and liabilities to the extent that they are realizable. Deferred tax expense (benefit) results from the net change in deferred tax assets and liabilities during the year. A deferred tax valuation allowance is required if it is more likely than not that all or a portion of the recorded deferred tax assets will not be realized.

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation (FIN) No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109*. FIN 48 contains a two-step approach to recognizing and measuring uncertain tax positions (tax contingencies) accounted for in accordance with SFAS No. 109. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates it is more likely than not that the position will be sustained on an audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount which is more than 50% likely of being realized upon ultimate settlement. We consider many factors when evaluating and estimating our tax positions and tax benefits, which may require periodic adjustments and which may not accurately forecast actual outcomes. The Company adopted the provisions of FIN 48, effective January 1, 2007, without material effect in the financial statements.

The Company operates within multiple taxing jurisdictions and could be subject to audit in these jurisdictions. These audits may involve complex issues, which may require an extended period of time to resolve. The Company has provided for its estimated taxes payable in the accompanying financial statements. Interest and penalties related to income tax matters are recognized as a general and administrative expense. The Company did not have any unrecognized tax benefits and did not have any interest or penalties accrued as of June 30, 2008 or December 31, 2007. The Company does not expect the unrecognized tax benefits to change significantly over the next twelve months.

The above listing is not intended to be a comprehensive list of all of the Company's accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally accepted in the United States, with no need for management's judgment in their application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Sensitivity. The Company maintains cash and cash equivalents which consist of cash, money market funds and certificates of deposit with financial institutions. Due to the conservative nature and relatively short duration of our cash and cash equivalents, interest rate risk is mitigated.

Our investments consist of high-grade (AAA rated) Taxable Auction Rate Preferred, 7 and 28 day Dutch auction securities and government obligations. The Dutch auction process resets the applicable interest rates at prescribed calendar intervals and is intended to provide liquidity to the holders of auction rate securities by matching buyers and sellers in a market context, enabling the holders to gain immediate liquidity by selling such securities at par, or rolling over their investment. If there is an imbalance between buyers and sellers, there is a risk of a failed auction. Due to recent credit issues experienced by short-term funding markets, some of these securities have failed at auction during the first six months of 2008. An auction failure is not a default, and in some cases it could reset the applicable interest rates to a higher rate as outlined by the security. We do not currently intend to liquidate these investments at below par value or prior to a reset date. However, if the global credit market continues to deteriorate, we could determine that some of our investments are impaired. We will assess the fair value of these securities at the end of each quarter to determine if an impairment charge may be required. Based on our ability to access our cash and cash equivalents, our expected operating cash flows and our other sources of cash, we do not anticipate that any lack of liquidity related to these securities will materially affect our ability to operate our business.

Item 4. Controls and Procedures

As of the date of this report, our Chief Executive Officer and our Controller performed an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the Chief Executive Officer and Controller concluded that the Company's disclosure controls and procedures are effective in ensuring the reporting of material information required to be included in the Company's periodic filings with the Securities and Exchange Commission. There were no significant changes in the Company's internal controls over financial reporting or in other factors that could significantly affect these internal controls over financial reporting subsequent to the date of the most recent evaluation.

Table of Contents**PART II OTHER INFORMATION****Item 1A. Risk Factors**

There have been no material changes in our risk factors from those disclosed in our 2007 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table presents the aggregate quarterly purchases during the second quarter of 2008:

			Total number of shares purchased as part of publicly announced repurchase programs	Maximum number of shares that may yet be purchased under the programs
	Month	Total number of shares purchased	Average price paid per share	(1),(2)
	May	1,705	\$ 16.27	258,944
	June	1,200	16.28	257,744
	Total	2,905	\$ 16.27	

(1) In 1994 and various dates since then, most recently May 14, 2003, the Board of Directors authorized 500,000 shares of the Company's common stock for repurchase. From inception through June 30, 2008, we repurchased 492,256 shares of our common stock.

(2) On March 18, 2008, the Board of Directors authorized a new repurchase program. Under

the 2008 program, the Company is authorized to repurchase up to an additional 250,000 shares of the Company's common stock, subject to certain market conditions. As of June 30, 2008, there have been no repurchases made under this program.

Item 4. Submission of Matters to a Vote of Security Holders

The Annual Meeting of Shareholders of Psychemedics Corporation was held on May 15, 2008 for the purpose of electing a board of directors. Proxies for the meeting were solicited pursuant to Section 14(a) of the Securities Exchange Act of 1934 and there was no solicitation in opposition to management's solicitations.

Description and tabulation by the Company's transfer agent of each matter voted upon at the Annual Meeting of Shareholders of Psychemedics Corporation held on May 15, 2008:

All of management's nominees for directors, as listed in the proxy statement, were elected with the following votes:

Name	Number of Shares	
	For	Withheld
Raymond C. Kubacki, Jr	4,743,307	169,136
Harry F. Connick	4,740,670	171,773
Walter S. Tomenson, Jr.	4,742,983	169,460
Fred J. Weinert	4,664,705	247,738
