CERTIFICATE
OF
NOTIFICATION

Public Utility Holding Company Act of 1935 (PUHCA)

Exelon Corporation, a Pennsylvania corporation and registered holding company (Exelon), hereby submits the following Certificate of Notification pursuant to Rule 24. This filing is made pursuant to Exelon's Form U-1 Application-Declaration, as amended (the "Financing U-1") and the Securities and Exchange Commission's merger, financing and investment orders. This certificate reports activity in File No. 70-9693 for the period October 1, 2003 through December 31, 2003. Any capitalized terms used herein but not defined herein have the respective meanings given in the Financing U-1 or the Commission's Orders.

See Exhibit A for Glossary of Defined Terms

1. Order - A computation in accordance with rule 53(a) setting forth Exelon's "aggregate investment" in all EWGs and FUCOs, its "consolidated retained earnings" and a calculation of the amount remaining under the Requested EWG/FUCO Authority.

Rule 53(a) provides that a registered holding company's aggregate investment in EWGs and FUCOs may not exceed 50% of its retained earnings. Exelon was granted partial relief from this rule pursuant to the December 8, 2000 Order, which provides for a Modified Rule 53 Test applicable to Exelon's investments in EWGs and FUCOs of \$4,000 million. At December 31, 2003, Exelon's "aggregate investment" (as defined in rule 53(a) under PUHCA) in all EWGs and FUCOs was approximately \$2,545 million, and accordingly, at December 31, 2003, Exelon's remaining investment capacity under the Modified Rule 53 Test was approximately \$1,455 million. At December 31, 2003, Exelon's "consolidated retained earnings" (as defined in rule 53(a) under PUHCA) was \$2,245 million.

2. Order - A breakdown showing Exelon's aggregate investment in each EWG or FUCO counting against the Requested EWG/FUCO Authority.

Pursuant to a request for confidential treatment under rule 104(b) of PUHCA, Exelon is concurrently filing in paper format as Attachment 1, certain information concerning the aggregate investment by EWG/FUCO Project.

3. Order - Identification of any new EWG or FUCO counting against the requested EWG/FUCO Authority in which Exelon has invested or committed to invest during the quarter.

On December 22, 2003, Exelon Generation Company, LLC purchased the remaining 50% interest in AmerGen Energy Company, LLC that was indirectly owned by BE US Holdings, Inc., a subsidiary of British Energy plc for \$276.5 million. AmerGen is now a wholly owned subsidiary of Exelon Generation and owns and operates 3 nuclear generating facilities with a combined capacity of 2,492 MW. The Clinton plant is located in Clinton, Illinois; Oyster Creek is located in Forked River, New Jersey; and Three

Mile Island is located in Londonderry Township, Pennsylvania.

On November 25, 2003, Generation, Reservoir Capital Group (Reservoir) and Sithe completed a series of transactions resulting in Generation and Reservoir each indirectly owning a 50% interest in Sithe. The series of transactions is described below. Immediately prior to these transactions, Sithe

1

was owned 49.9% by Generation, 35.2% by Apollo Energy, LLC (Apollo), and 14.9% by subsidiaries of Marubeni Corporation (Marubeni).

Entities controlled by Reservoir purchased certain Sithe entities holding six U.S. generating facilities, each a qualifying facility under the Public Utility Regulatory Policies Act, in exchange for \$37 million (\$21 million in cash and a \$16 million two-year note); and entities controlled by Marubeni purchased all of Sithe's entities and facilities outside of North America (other than Sithe Energies Australia (SEA) of which it purchased a 49% interest on November 24, 2003 for separate consideration) for \$178 million. Marubeni agreed to acquire the remaining 51% of SEA in 90 days if a buyer is not found, although discussions regarding an extension are ongoing.

Following the sales of the above entities, Generation transferred its wholly owned subsidiary that held the Sithe investment to a newly formed holding company. The subsidiary holding the Sithe investment acquired the remaining Sithe interests from Apollo and Marubeni for \$612 million using proceeds from a \$580 million bridge financing and available cash. Generation sold a 50% interest in the newly formed holding company for \$76 million to an entity controlled by Reservoir. On November 26, 2003, Sithe distributed \$580 million of available cash to its parent, which then utilized the distributed funds to repay the bridge financing.

In connection with this transaction, Generation recorded obligations related to \$39 million of guarantees in accordance with FASB Interpretation (FIN) No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness to Others" (FIN No. 45). These guarantees were issued to protect Reservoir from credit exposure of certain counter-parties through 2015 and other indemnities. In determining the value of the FIN 45 guarantees, Generation utilized a probabilistic model to assess the possibilities of future payments under the indemnifications.

Both Generation and Reservoir's 50% interests in Sithe are subject to put and call options that could result in either party owning 100% of Sithe. While Generation's intent is to fully divest Sithe, the timing of the put and call options vary by acquirer and can extend through March 2006. The pricing of the put and call options is dependent on numerous factors, such as the acquirer, date of acquisition and assets owned by Sithe at the time of exercise. Any closing under either the put or call options is conditioned upon obtaining state and Federal regulatory approvals.

Based on Generation's interpretation of FASB Interpretation No. 46 (revised December 2003), "Consolidation of Variable Interest Entities" (FIN No. 46-R), it is reasonably possible that Generation will consolidate Sithe as of March 31, 2004. The book value of Generation's investment in Sithe was \$47 million at December 31, 2003.
